

**WICKENS
HEAVY DUTY RACKING**

HEAVY DUTY RACKING

WHEN STANDARD PALLET RACKING CANNOT COPE

- Uprights and beams manufactured from structural steel sections, giving a very robust design capable of withstanding the most arduous industrial environments.
- Frame depths up to 5 metres.
- Beam widths up to 8 metres.
- Vertically adjustable beams.
- Optional timber or steel decks available on request.
- Pallet support bars, fork entry bars, as well as cradles for storing drums or coils available as options.
